

Order Form – “YM2YM”

Young Moms to Young Moms is a youth engagement program that builds on the resiliency of young pregnant and parenting women. It emerged from a substance abuse prevention project for young pregnant and parenting women, ages 13 – 21, funded by Health Canada. The goal of the **YM²** project was to prevent drug misuse by increasing young women’s confidence and coping strategies and building on their knowledge of the possible adverse health and social effects of alcohol and other drugs, using a peer-to-peer strategy.

The project has resulted in the YM² Resource Package, offering young pregnant and parenting women, and those who support them, materials and training activities to increase knowledge about alcohol and other drugs, remove stigma, build confidence and promote peer bonding.
